In dealing with schedule and load, consider implementing the idea you've heard from your administration. Friday afternoon technical seminars.

Fridays in winter from noon until 4:00 pm

Include a lunch in registration fee?

Topics to present:

Wireshark basics with practice

Email encryption with building infrastructure

Puppet automation

Practical IPSec between system

Computer hash algorithmns

IDS operation

Log file consolidation

SDN with Mikrotik routers

LDAP and AD

It would be cool in Tim's mind to create make and take lessons
