This is a test.  
Well, it might be the emergency broadcast system.  
Then, it might not be.

We will finally type the command  
sequence :wq to write out the file and  
quit.

:w

Documents : vi

preuss@msctclinux:~/Documents> vi difficult.txt  
preuss@msctclinux:~/Documents> █

```

preuss@msctclinux:~/Documents> vi difficult.txt
preuss@msctclinux:~/Documents> cat difficult.txt
This is a test.
Well, it might be the emergency broadcast system.
Then, it might not be.
preuss@msctclinux:~/Documents> █

```

We used the cat command to view the file quickly.

This is a test.  
Well, it might be the emergency broadcast system.  
Then, it might not be.

We issued the command vi difficult.txt to enter vi command mode and open the file difficult.txt.

"difficult.txt" 3L, 89C
