Spare layouts

Main layout count:

The presentation selects "Apply". It is possible to add more languages before continuing. The presentation exits "Configure Desktop".

Default Style | Liberation Serif | 12 | **B** | *i* | U | [List icons]

This is simple.

The presentation opens a word processor and enters text. Note the flag in the "system tools".

This is simple.
 لإهس هس سهحمث

The presentation selected the flag once. This changed the input language. The presentation type, although arabic speakers can confirm it is nonsense.
